

# BLENDDED FAQ

# KA'ŌHAO VIRTUAL ACADEMY

## WHAT TO EXPECT

### TIME

Acellus Learning is a year-long program. Students will be given assignments on their Student Dashboard to complete each day. How long that takes will differ based on student focus and understanding of concepts. Students will be able to track progress through their Student Dashboard. Access will begin the week of August 18th.

### PARENT INVOLVEMENT

Acellus Learning provides a Parent Interface that allows parents to see and track student learning and communicate with KVA staff. Parents are encouraged to set up a designated work space and schedule to help students maintain focus and timely work habits.

### ON - CAMPUS

Students will participate in on-campus enrichment in the cafeteria once a week. During that time, students will practice school routines, procedures, Social/Emotional Learning, ELA and other academic supports. Students will also receive personalized learning, as needed, based on their progress in their online learning.

Students will be provided with limited school supplies and will be expected to bring their device on their designated day. Students will follow all school-wide safety protocols including social distancing, masks, and hand-washing.

At this time, students participating in KVA will not participate in specials or extracurricular curriculum.
